Like, the ocean, Cancerians are nurturing and receptive, but they can also be emotionally stormy and wildly unpredictable. No one is more sensitive than a Cancerian; making other people happy is their greatest pleasure and making people unhappy is their greatest fear. You cant have a better friend than a Cancerian. Cancerians do enjoy a certain amount of lounging around, especially in luxurious and tranquil surroundings or anywhere near water. Cancerians have a natural affinity with water and invariably enjoy messing around in boats and water sports.

**HEALTH** As long as Cancer has security and plenty of affection they are as fit as a fiddle. Health problems usually arise through worry when these things are lacking. In particular Cancerians will suffer from: Illness of the upper digestive tract, indigestion, catarrh and coughs, anaemia and lowered vitality, eating disorders. Body parts traditionally linked to the strong influence of Cancer are: Oesophagus, Sternum, Breasts, Ribs, Diaphragm, Upper lobes of liver, Stomach, Gall bladder and Womb (female). An individuals birth chart will show if any of these body parts have inherited a strength or vulnerability.

**LOVE** Affection runs very deep in Cancerian characters. They have a talent for love of the most romantic kind. A Cancerian love will be nurturing, intimate, responsive and devoted. They are able to ignore their lovers flaws and see only the good, even when others cant. They are happiest when in the heart of their family, but if, as frequently the case, they consider that they are misunderstood by those dear to them, they may become miserable and dejected, and retire within themselves. If you look Chris Pages illustration of the crab, it looks like its about to give you a tremendous hug. Its arms are spread wide open, waiting for you to fall into them. But, it also has very strong claws and keeps a powerful grip onto what it has latched onto. Suitable love matches for a typical Cancer are Taurus, Cancer & Pisces

The wheel is complete - commenced in March 2009 and completed November 2009 - a nine month gestation. Each zodiac signs sits within a repeating segment from which is sub divided (1.618) to show the sign illustration and it's consolation below. All segments revolve around OM at the centre. Each sign illustration has spirals within it that connects points of energy to the next in each direction. Now that it is finally completed the 12 are in place around 1 and all consolations are joined in the space. Each individual star segment is a painting in its own right, ink on water colour paper with the illustration drawn in white pastel.
