CAPRICORN is a feminine, cardinal earth sign. This is one of the most stable, reliable and utterly dependable signs in the zodiac. They are able to overcome any problem that would defeat someone else. CAPRICORNS tend to have a huge struggle within themselves that is completely invisible from the outside. They are blessed and cursed with the ability to have a clear perception of the real world.

and hard before committing, use their charm to hide discomfort, can be very easily put off by teasing (even when it is a joke). CAPRICORNS are the only sign that sees love and sex as the same thing. They will become more comfortable with both as they grow older. CAPRICORNS are typically compatible with Taurus, Virgo and Pisces

The wheel is complete - commenced in March 2009 and completed November 2009 - a nine month gestation. Each zodiac signs sits within a repeating segment from which is sub divided (1.618) to show the sign illustration and it's consolation below. All segments revolve around OM at the centre. Each sign illustration has spirals within it that connects points of energy to the next in each direction. Now that it is finally completed the 12 are in place around 1 and all consolations are joined in the space. Each individual star segment is a painting in its own right, ink on water colour paper with the illustration drawn in white pastel. Check out your own star sign painting - high quality unframed or framed greeting cards prints available at [www.ourpsychicart.com](http://www.ourpsychicart.com) to purchase.
