Scorpio planet is Pluto, the ancient god of the underworld. It is the most remote and least understood planet in the solar system.

Elemental Influence for Scorpio is Water. Still waters run deep for this character. Like a broad meandering river, Scorpios are relentless and will wear down any and all opposition.

KEYWORDS Death, sex, Money, Passion & Discovery, transformation & metamorphosis, Investments & Inheritance, Secrets & Magic, Honesty & Revolution, Privacy and the unconscious.

Scorpio is a feminine, fixed water sign. They have had bad press over the years as being obsessive, vengeful and jealous characters. I feel this is only partly true. Truth is a keyword to a scorpion and they just cannot ignore it, however unpleasant. Scorpios are far from dumb and their honesty can be controversial at times. For this reason they tend to be secretive. This can be misinterpreted as sneakiness or cunning.

SCORPIO CHILDREN typically has these characteristics: Is secretive, is suspicious of strangers, has a temper, is very inquisitive, has understanding beyond their years, respects strength, takes advantage of weakness, is honest and has very clear desires. Scorpio

HEALTH Over work and relentless pursuit of goals are the great threats to this signs body. Scorpios suffer particularly from Nose and throat problems, hernias and piles and problems with the reproductive organs. Body parts linked to Scorpio are: Nose, throat, back, spine, reproductive organs, legs and ankles.

LOVE They are extremely secretive about their attraction, When they have a partner they expect complete fidelity, a forgiving lover and a lover who appreciates the access to their

inner thoughts. Scorpios are not the easiest people to win the heart of. They won't let you in easily. Romance appeals to them but not in a shallow way. Scorpios tend to see sex as love. They find it hard to conceive sex without love but not the other way around? It's very much a mystery for them. Scorpios are typically compatible with Virgo, Capricorn and Pisces. Scorpio

The wheel is complete - commenced in March 2009 and completed November 2009 - a nine month gestation. Each zodiac sign sits within a repeating segment from which is sub divided (1.618) to show the sign illustration and its consolation below. All segments revolve around OM at the centre. Each sign illustration has spirals within it that connects points of energy to the next in each direction. Now that it is finally completed the 12 are in place around 1 and all consolations are joined in the space. Each individual star segment is a painting in its own right, ink on water colour paper with the illustration drawn in white pastel. Check out your own star sign painting - high quality unframed or framed greeting cards prints available at www.ourpsychicart.com to purchase.
