Taurus planet is Venus. The ruling planet of the Love Goddess. Venus is the queen of sensuality and luxury.

Elemental Influence for Taurus is Earth. Taurus is a fixed earth sign. Their characters are very much like a vast, majestic mountain. They have solidity and endurance in the face of adversity that you would expect from a soaring peak, as well as quiet yet breath taking majesty. They also have tendencies to move as fast as a slab of granite and to get them to change their minds is almost impossible.

KEYWORDS Wealth & Prosperity, Beauty & Sensuality, Nature & Living things, Control & Dependability, Organization & Tenacity, Stubbornness & Caution, Strength & Kindness, Taurus is a feminine, fixed earth sign. The glyph for this sign is the Bulls head, which has links to early civilizations in Egypt. There is a deep seated paradox in the Taurean character. They are every bit as down to earth and tenacious as you would expect from a sign represented by the Bull, but they also have a ethereal and very creative side to them that seems to come from nowhere. The instability of the Taurean appetite is legendary, but they are no glutton. Taste and refinement are hallmarks of a Taurean. They are strongly anchored in the physical world which gives them a sense of style and quality. Taureans can spot a fake from a mile away and are completely incapable of deceit.

TAUREAN CHILD typically has these characteristics: Is very quiet Dislikes being the centre of attention Loves nature and animals Is very self-reliant Tends to be introverted Is usually calm and rarely angry Is extremely stubborn Has physical strength and toughness Likes to collect things

HEALTH Taureans are immensely physically tough and bear pain and discomfort better than most. An unwelcome disturbance in routine is the most likely cause of health problems. There are apparently very few cases in the recorded history of Taureans

complaining about physical discomfort. Their stubborn refusal to accept they might be ill can lead to serious problems. Body parts linked to Taureans are tongue, tonsils, neck, throat, thyroid, vocal cords, veins, kidneys and genital organs. Taureans tend to suffer from disorders caused by over indulgence, throat infections, swollen glands, clinical depression and constipation.

LOVE Ruled by Venus, the goddess of Love herself, you would think that a Taurean love life should be complete bliss and totally serene. Unfortunately, its not the case at all. Their extreme desire to posses and be stable tends to mar many relationships. In love a Taurean typically expects glamour and good living, absolute loyalty, total honesty and high moral standards, to be endlessly pampered and for their lover to remember important dates. Good zodiac matches for Taurus are Cancer, Virgo and Capricorn.

The wheel is complete - commenced in March 2009 and completed November 2009 - a nine month gestation. Each zodiac signs sits within a repeating segment from which is sub divided (1.618) to show the sign illustration and it's consolation below. All segments revolve around OM at the centre. Each sign illustration has spirals within it that connects points of energy to the next in each direction. Now that it is finally completed the 12 are in place around 1 and all consolations are joined in the space. Each individual star segment is a painting in its own right, ink on water colour paper with the illustration drawn in white pastel.
